THEATRES

Adelphos

The screen's most successful portrayal of Abraham Lincoln, Joseph Henabery, who played the role of the martyred president in "The Birth of a Nation," and who since then has become a director of considerable reputation, welded the megaphone in the production of "Love Madness," the J. Parker Road, Jr., production in which Louise Gluskin appears as the star at the Adelphos theater Saturday. Mr. Henabery has also directed Douglas Fairbanks, Mildred Harris Chaplin, and Roscoe Arbuckle in his latest semi-comic vehicles.

Princess

One of the most ingenious stage sets ever devised for a motion picture was employed by Marguerite Clark in the production of "Scrambled Wives," the First National attraction which is coming to the Princess theater on Friday and Saturday. In one scene the petite star, wearing a Benda mask made famous by Margaret Severn of the Greenwich village follies, gives a doll dance on a Japanese stage set, with water falls and snow-capped mountains in the background. The "waterfalls" which pass over a ledge in a steady stream as in reality a thick column of soapuds, in a huge vat back of the stage the soapuds were electrically heated to the boiling point and forced over the top by a special mechanical contrivance. Colored motion picture photography was employed in the taking of this scene, and with the set carried out in chocolate, orange, white and blue, a most striking effect is said to have been obtained, the glistening waterfalls being an outstanding feature.

Liberty

Jack Hoxie, the Ben Wilson-Arrow star is again the hero of a splendid western picture written and directed by Hoy Clements and produced under the personal supervision of Mr. Ben Wilson, with a cast which includes Evelyn Nelson, James Welsh, James McDonald and Claud Payton.

"Two Fisted Jefferson" will be shown at the Liberty theater on Saturday and every admirer of verile action and powerful stories should not miss seeing it.

SEX TRANSFORMATION CLAIMED BY SCIENTISTS

LONDON — The day should come according to eminent British zoologists, when science will be able to determine and to control the power of growth. The interest taken in this subject was shown by numerous audience which attended a lecture on intersexuality before the British association by Dr. F. A. E. Chew.

Dr. Chew is the scientist who last year reported the result of some remarkable experiments during which he changed hens into crowing cockerels. The continuation of these experiments, he said, had resulted in the complete reversal of the sex of his and cockerels but his lecture this year dealt chief with goats.
